

Name \_\_\_\_\_

Age \_\_\_\_\_

Today the weather looks the most like  
(circle one):

# Spring all around me!

Let's count and estimate: Grab a belt, hula hoop, or jump rope.  
Toss it on the lawn. Inside that circle...

## 1st - Estimate:

I think there are # \_\_\_\_\_  
flowers in my circle.

## 2nd - Count:

I counted and found  
that there are # \_\_\_\_\_  
flowers in my circle.

What colors do you see in your circle?

Write the name or  
draw with each one.

Look around. How many kinds of flowers can you find on the lawn?  
Draw the flowers you see. Label what you notice about each one.

Share what you find with

# Spring all around me!

## Observe a Flower

Draw Your  
Flower

Tally how many of each insect visit your flower

BEES:

BUTTERFLIES:

BEETLES:

FLIES:

OTHER:

Add up your tallies to find the total # of visitors: \_\_\_\_\_

## Write about a busy bee!

Use your observations and your imagination to help you.

First, the bee \_\_\_\_\_

\_\_\_\_\_.

Then, \_\_\_\_\_

\_\_\_\_\_.

Suddenly, \_\_\_\_\_

\_\_\_\_\_!

Finally, \_\_\_\_\_

\_\_\_\_\_.
