

Name _____

Age _____

Today the weather looks the most like
(circle one):

Autumn all around me!

Let's count and estimate: Grab a handful of fallen leaves and investigate what you see.

Estimate:

I think there are # _____
leaves in my hands.

Count:

I counted and found that
there are # _____ leaves in
my hands.

What colors can you find in the
leaves you collected? Look very
closely!

How many leaves of each color did you find?

Red

Green

Yellow

Orange

Brown

Try again!

What other objects in nature can you count or estimate?

Estimate:

I think there are # _____ of
_____ in my hands.

Count:

I counted and found that there are
_____ of _____ in my hands.

What colors can you find in the objects
you collected? Look very closely!

Make a list of the colors you see in the objects you
collected.

Share what you find with

Name _____ Age _____

Autumn all around me!

Observe a squirrel:

What do you see it doing?

What do you know about squirrels?

What are squirrels afraid of?

How is the squirrel moving?

Very fast? Very slow?

What do squirrels eat?

Write a squirrel tale!

Use your observations and your imagination to help you.

First, the squirrel _____

Then, _____

Suddenly, _____!

Next, _____

Finally, _____
